

REMARKS

The present Application is a Divisional Application of Parent Application Serial Number 10/264,068, in which an election was made to Invention I: Figure 4A, original Claims 1-11, 13-17, and 19-22. The present Amendment brings the claims into conformity with an election of Invention II: Figure 4B, original Claims 12, 18 and 23. In this regard, Claim 1 has been amended to include the recitations of Claim 12.

Further, a drawing correction is being submitted herewith, which conforms to the drawing correction submitted in Parent Application Serial Number 10/264,068. In this regard, Applicants are providing with this Amendment substitute formal drawing sheets 3 and 4 including the following corrections: At sheet 3, Figure 4A has been amended to add numeral "26", change the label of the amplifier 30 from "IN-AMP" to "OP-AMP", add an input resistor with label "R₀₂" at the non-inverting input of amplifier 32, and label "C₀₁" has been changed to "C₀₂" for the capacitor at the non-inverting input of amplifier 32; and at sheet 4, Figure 4B has been amended to add label "C₀₄" to the unlabeled capacitor between resistor "R₀₄" and amplifier 44. Support in the Specification for the changes is found on page 5, the paragraph beginning at line 19, and on page 6, the paragraph beginning at line 17.

Applicants respectfully request entry of this Preliminary Amendment.

Respectfully submitted,
